Request for Certificate of Correction Under 37 CFR 1.322 pursuant to 35 USC 254

Dear Sir:

Applicants, by their attorney, request a Certificate of Correction for the above-referenced patent. The correction requested involves a mistake made by the Patent Office. No new matter is provided with this Certificate of Correction. Attached is Form PTO/SB/44 (1 page) indicating the requested correction on the Letters Patent.

Please see copies of the Bibliographic Data Sheet (initialed by the Examiner, posted to PAIR on 5/9/2005), page 2 of the Executed Declaration, and page 1 of the Request for Corrected Filing Receipt, all showing the correct spelling of the second inventor, Xiao Jun Wang.

Attached is a copy of page 1 of the Patent, showing the requested correction.

Applicants do not believe any fees are due with this submission. However, if fees are deemed necessary, authorization is given to the Commissioner to charge any fees and credit any overpayments to Deposit Account No. 07-1445 (Order No. ZICO0041).

Respectfully submitted,

Michael A. Glenn

ABSTRACT

A computer-implemented method for encoding a handwritten stroke set, each of the handwritten stroke set being representative of a constituent stroke of an ideographic character, to obtain an encoded input sequence. The method includes ascertaining a shape of a first stroke of the handwritten stroke set and ascertaining one of a location information and a size information pertaining to the first stroke. The method further includes assigning a first code to the encoded input sequence responsive to a determination of the shape of the first stroke and a determination of the one of the location information and the size information of the first stroke. The first code is predefined to represent the shape of the first stroke and the one of the location information and the size information of the first stroke. The first code is sufficiently unique to distinguish the first code from other codes representing other permutations of shape and the one of the location information and the size information of the first stroke.
